Mr. Wiszowaty, In reference to your FOIA request dated August 15, 2012 I have attached a response. Do to my demotion by Chief Fox and subsequently locked out of the system and my office I was unable to answer your request. I have answered your request as soon as I was aware of it, and I have also carbon copied this response to Ms. Pratt as well. In reference to your request I would also advise you to consult with the stats we provide to Illinois state Uniform Crime reporting. These statistics were taken out of our system and may have been reclassified. The statistics provided are as reflected in our software. Please advise if you should require additional information.

Thank you

Lisa Gibbons

Subject: Fw: FOIA REQUEST
Sarah Pratt Acting Public Access Counselor Office of the Attorney General 500 S. 2nd Street Springfield, Illinois 62706

Attn Ms Pratt:

Attached please find the original email requesting said routine information from the Village of Sauk Village's Police Department. This is now the second Freedom of Information Act request that has been categorically ignored by the Village of Sauk Village with no response what-so-ever.

I am requesting official sanction and immediate intervention by the Illinois Attorney General to procure said information requested pursuant to the act. The Village of Sauk Village is not in compliance because they have not acted or responded to the request for information.

Residents of Sauk Village and the public have a right to know about criminal activity, there is nothing that could be construed as "protected" since this is merely statistical data which should be available.

Sincerely, J. Wiszowaty Sauk Villager --- On **Thu, 8/16/12, Sauk Villager News <saukvillager@yahoo.com>** wrote:
